Report of the Town Clerk

WARRANT FOR THE ANNUAL TOWN MEETING, 1930

The Commonwealth of Massachusetts

Bristol, ss.

To either of the Constables of the Town of Easton in the County of Bristol, Greeting:

In the name of the Commonwealth of Massachusetts, you are directed to notify and warn the inhabitants of the Town of Easton, qualified to vote in elections and town affairs, to meet in the Town Hall in said Easton on Monday, the third day of March next at eight o'clock P. M. then and there to act upon the following articles:

Article 1. To see if the Town will accept the reports of the Selectmen, Assessors, Board of Public Welfare, Town Clerk, Treasurer, Collector of Taxes, Board of Health, School Committee and Tree Warden.

Article 2. To raise such sums of money as may be necessary to defray the town charges for the ensuing year, and make appropriations for the same.

Article 3. To see if the Town will authorize the Town Treasurer, with the approval of the Selectmen, to borrow money on and after January 31, 1931, in anticipation of revenue of the financial year beginning January 1, 1931, and issue notes of the Town therefor.

Article 4. To see if the Town will raise and appropriate the sum of three hundred dollars ($300) for Memorial Day, to be expended under the direction of George S. Shepard Post, American Legion.

Article 5. To see if the Town will appropriate from surplus revenue a sufficient sum to cover certain unpaid bills of 1929 and bills rendered after the close of the fiscal year.

Article 6. To see what sum the Town will authorize the Assessors to use from surplus revenue to reduce the tax levy for the current year.

Article 7. To see if the Town will vote to employ a nurse to work in conjunction with the Easton Nursing Association, and appropriate three hundred dollars ($300) for the same.

Article 8. To hear the report of the Special Building Committee on school buildings and to make such further appropriation as may be necessary to complete said buildings and furnish and equip the same.

Article 9. To see what action the Town will take toward removing or otherwise disposing of the school building on Barrows Street and appropriate money for the same.

Article 10. To see what action the Town will take on the report of the Committee appointed to consider the use of Ames Memorial Hall for town offices, and to authorize the rental of suitable quarters for town offices and appropriate money for the same.

Article 11. To see if the Town will vote to purchase fire apparatus and equipment of the North Easton Village District and rent or purchase the building of said department, to provide for salaries of firemen, or otherwise act thereon, and appropriate money for the same.

Article 12. To see if the Town will vote to purchase a truck for the Moth Department, and raise and appropriate money for the same.

Article 13. To see if the Town will vote to purchase an automobile for the Police Department and raise and appropriate money for the same.

Article 14. To receive the report of the Committee on purchase of a fire truck and to raise and appropriate money for said truck or otherwise act thereon.

Article 15. To see if the Town will vote to establish the salary of Forest Warden and raise and appropriate money for the same.

Article 16. To see if the Town will vote to authorize the payment of bills not exceeding two hundred and fifty dollars ($250) to the Brockton Hospital for services rendered prior to the close of the fiscal year, and raise and appropriate money for the same.

Article 17. To see if the Town will vote to rent or purchase, in conjunction with the State, an automatic traffic signal, to be installed on the State highway at Dailey's Corner.

Article 18. To see if the Town will vote to raise and appropriate the sum of five thousand dollars ($5000) to be used, in conjunction with the State and County, in the building of Foundry street and Norton avenue (Route 123).

Article 19. To transact any other business that may legally come before said meeting.

You are also directed to notify and warn the inhabitants of the Town of Easton, qualified to vote in elections, residing in Precinct One to meet at the Town Hall, those residing in Precinct 2 to meet at Memorial Hall, and those residing in Precinct Three to meet at South Easton Schoolhouse on Monday, the tenth day of March at fifteen minutes before six o'clock in the forenoon to bring in their votes, all on one ballot, for one member of the Board of Assessors, Board of Health and School Committee for the term of three years; for three members of the Board of Selectmen, three members of the Board of Public Welfare, Moderator, Town Clerk, Treasurer, Collector of Taxes, Tree Warden, five Constables and a Finance Committee of fifteen for the term of one year.

The polls will be open at fifteen minutes before six o'clock A. M. and shall be closed at three o'clock P. M.

And you are directed to serve this warrant by posting attested copies thereof, one at each meeting house and post office and at the Town Hall, seven days at least before the time of holding said meeting.

Hereof ,fail not, and make due return of this warrant with your doings thereon to the Town Clerk, at the time and place of holding said meeting, and said Town Clerk is hereby re-

quired to make return of this warrant to the Warden or Deputy Warden at the time and place of holding said meeting for the election of officers, and said Warden is required to make return of this warrant to the Town Clerk, together with his return of officers elected, at the close of said meeting.

Given under our hands this seventeenth day of February, 1930.

LEONARD H. PORTER
FRANK P. KEITH
FRANK C. WADE
Selectmen of Easton.

Bristol, ss. Easton, February 24, 1930.

By virtue hereof and as within directed, I have posted attested copies of this warrant as within directed.

ELISHA T. ELLIS,
Constable of Easton.

A true copy of the warrant and return thereon.
Attest:

HARRY R. FRANKLIN,
Town Clerk.

ANNUAL TOWN MEETING, MARCH 3, 1930

The meeting was called to order at eight o'clock P. M. and the warrant read by the Moderator, Leo M. Harlow.

Article 1. Voted to accept the report of the Selectmen.

Voted to accept the report of the Board of Public Welfare.
Voted to accept the report of the Town Clerk.
Voted to accept the report of the Town Treasurer.
Voted to accept the report of the Collector of Taxes.
Voted to accept the report of the Board of Health.

On motion of Mr. Samuel Knowles, it was unanimously voted that hereafter the annual reports of the Highway, Tree, Moth and School Departments shall contain a statement of the salaries paid, and that the Board of Public Welfare shall report the stores with whom they do business and the amount paid to each one.

Voted to accept the report of the School Committee.

Voted to accept the report of the Tree Warden.

Voted to accept the report of the Town Accountant.

Article 2. Upon motion of Mr. William N. Howard, Chairman of the Finance Committee, the following appropriations were voted for the Year 1930.

Voted to raise and appropriate the sum of $500.00 for Assessors' Expense.

Voted to raise and appropriate the sum of $1200.00 for salary of Assistant to the Town Clerk, Treasurer and Collector of Taxes.

Voted to raise and appropriate the sum of $300.00 to employ a nurse to work in conjunction with the Easton Nursing Committee.

Voted to raise and appropriate the sum of $750.00 for Election Expense.

Voted to raise and appropriate the sum of $2000.00 for a Reserve Fund.

Voted to raise and appropriate the sum of $1600.00 for the Fire Department.

Voted to raise and appropriate the sum of $2000.00 for the Health Department.

Voted to raise and appropriate the sum of $150.00 for the salary of Inspector of Animals.

Voted to raise and appropriate the sum of $2500.00 for Interest on Notes.

Voted to raise and appropriate the sum of $300.00 for Incidentals.

Voted to raise and appropriate the sum of $1400.00 for Insurance.

Voted to raise and appropriate the sum of $600.00 for Legal Expense.

Voted to raise and appropriate the sum of $2000.00 for Moth Department.

Voted to raise and appropriate the sum of $350.00 for Memorial Day.

Voted to raise and appropriate the sum of $7500.00 for the Police Department.

Voted to raise and appropriate the sum of $492.00 for Pensions.

Voted to raise and appropriate the sum of $9750.00 for Public Welfare.

Voted to raise and appropriate the sum of $20,000.00 for the Road Department.

Voted to raise and appropriate the sum of $250.00 for Registrars of Voters' Expense.

Voted to raise and appropriate the sum of $225.00 for Registrars of Voters' Salaries.

Voted to raise and appropriate the sum of $93,761.00 for the School Department.

Voted to raise and appropriate the sum of $400.00 for Sealer of Weights and Measures.

Voted to raise and appropriate the sum of $2430.00 for Soldiers' Relief.

Voted to raise and appropriate the sum of $300.00 for Selectmen's Expense.

Voted to raise and appropriate the sum of $250.00 for State Aid.

Voted to raise and appropriate the sum of $550.00 for Tax Collector's Expense.

Voted to raise and appropriate the sum of $125.00 for Town Accountants Expense.

Voted to raise and appropriate the sum of $500.00 for Town Accountant's Salary.

Voted to raise and appropriate the sum of $475.00 for Town Clerk's Expense.

Voted to raise and appropriate the sum of $4000.00 for the Town Infirmary.

Voted to raise and appropriate the sum of $100.00 for Town Hall account.

Voted to raise and appropriate the sum of $5825.00 for Town Officers' Salaries.

Voted to raise and appropriate the sum of $600.00 for Town Physician.

Voted to raise and appropriate the sum of $250.00 for Town Treasurer's Expense.

Voted to raise and appropriate the sum of $2000.00 for the Tree Department.

Voted to raise and appropriate the sum of $600.00 for Town Reports.

Article 3. Voted that the Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow from time to time on and after January 1, 1931, in anticipation of revenue of the financial year 1931, and to issue a note or notes of the Town therefor, payable within one year, any debt or debts incurred under authority of this vote to be expressly made payable from the revenue of the financial year 1931.

Article 4. Article dismissed, action having been taken under Article 2.

Article 5. Voted to appropriate from surplus revenue the sum of $1351.48 to cover certain unpaid bills of 1929 and bills rendered after the close of the fiscal year.

Article 6. Voted that the sum of $12,000.00 be taken from surplus revenue to reduce the tax levy of the current year.

Article 7. Article dismissed, action having been taken under Article 2.

Article 8. Mr. David J. O'Connell, as Chairman of the School Building Committee, made a report of progress.

Voted to raise and appropriate the sum of $10,000.00 for the purpose of completing, furnishing and equipping the three schoolhouses authorized by the town at the last town meeting, and for necessary grading at the said schoolhouses.

Voted to accept the report of the committee.

Article 9. Voted that the School Building Committee be authorized to arrange for the demolishing of the old Junior High School Building and the removal of the same. It was further voted that whatever money may be received from the disposition of the property, be appropriated towards the grading of the premises.

Article 10. Voted to accept the report of the Committee appointed to consider the use of Oakes Ames Memorial Hall for town offices (the committee having advised against the use of the hall).

Voted to authorize the Selectmen to find suitable quarters for the town offices; and the sum of $500 was raised and appropriated to be applied to the removal, furniture and rent.

Article 11. Voted that the Selectmen appoint a committee of eight, to consist of two members from North Easton District, two from South Easton District, two from Unionville District and two from Easton Furnace, to work in conjunction with a similar committee to be appointed at the annual meeting in April of North Easton Village District, the joint committee to consider the question of the purchase by the Town of the fire apparatus and equipment of North Easton Village District, the rental or purchase of the Fire Station, to consider the question of salaries of firemen, and to report at the next town meeting.

Article 12. Voted to raise and appropriate the sum of $1500.00 for the purpose of purchasing a truck for the Moth Department.

Article 13. Voted to raise and appropriate the sum of $650.00 for the purchase of an automobile for the Police Department.

Article 14. Voted that the question concerning the purchase of a fire truck under this article be deferred until the committee appointed under Article 11 has reported back to the next annual meeting or a special meeting.

Article 15. Voted that the salary of the Forest Warden be fixed at $300.00. Voted to raise and appropriate the sum of $300.00 for salary of the Forest Warden.

Article 16. Voted to raise and appropriate the sum of $250.00 for payment to the Brockton Hospital for services rendered prior to the close of the fiscal year.

Article 17. Voted that the sum of $1150.00 be raised and appropriated for the purpose of installing, in conjunction with the State an automatic traffic signal on the state highway at Dailey's Corner.

Article 18. Under this article on an amendment offered by Mr. Samuel Knowles, it was voted that the sum of $4500.00 be raised and appropriated to be used in conjunction with the state and county in the building of Foundry Street and Norton Avenue (Route 123).

Article 19. No business was transacted under this article.

Voted to adjourn.

A true record. Attest.

HARRY R. FRANKLIN,
Town Clerk.

Notice

The attention of parents is called to the law relating to the registering of births. The present requirement is as follows:

Chap. 29, Sec. 6, of the Revised Laws. Parents within forty days after the birth of a child . . . shall cause notice thereof to be given to the clerk of the town or city in which such child is born.

Sec. 8. A parent . . . who neglects to do so for ten days after the time limited therefor . . . shall forfeit not more than five dollars for each offense.

Attention of Physicians and Midwives is called to Chap. 280, Sec. 1, Acts of 1912: Sec. 1. Physicians and midwives shall, within forty-eight hours after the birth of every child in cases of which they are in charge, mail or deliver to the clerk or registrar of the city or town in which the birth occurred a notice stating the date and place of the birth, giving the street number, if any, the number of the ward in a city and the family name. Failure to mail or deliver the said notice shall be punished by a fine not exceeding twenty-five dollars for each offense.

In accordance with the provisions of the law, the Town Clerk is prepared to furnish to parents, physicians, and midwives applying therefor, blanks for return of births as required by law.

For the benefit of the owners and keepers of dogs the following extract of the General Laws is hereby submitted:

General Laws, Chapter 140

Section 137. The owner or keeper of a dog which is three months old or over shall annually, on or before March thirty-first, cause it to be registered, numbered, described and licensed for one year from the first day of April following.

The owner or keeper of a licensed dog shall cause it to wear around its neck a collar distinctly marked with its OWNER'S NAME and its REGISTERED NUMBER.

Section 138. The owner or keeper of a dog may at any time have it licensed until the first day of April following, and a person who becomes the owner or keeper of a dog after April first, which is not duly licensed, and the owner or keeper of a dog which becomes three months old after March thirty-first in any year, shall, when it is three months old, cause it to be registered, numbered, described, licensed and collared as required by the preceding section.

(Example under Section 138 above.) If a dog is born on August 1, 1930, he becomes three months old on November 1, 1930, and should be licensed on that date for the period November 1, 1930, to April 1, 1931 (when it becomes necessary to re-license him for the year April 1, 1931, to April 1, 1932.)

Dog Licenses

Issued December 1, 1929 to December 1, 1930

Individual Licenses	527
Kennel	3
Breeder's	2
Total Licenses issued	532
412 Males @ $2.00	$ 824.00
115 Females @ $5.00	575.00
3 Kennel @ $50	150.00
2 Breeder's @ $25	50.00
Total amount received	$1,599.00
Less fees paid Town Treasury 532 Licenses @ 20c ea.	106.40
Paid Treasurer of Bristol County	$1,492.60

HARRY R. FRANKLIN,
Town Clerk.

Hunting, Fishing and Trapping Licenses

Issued in the Year 1930

202 Resident Citizens Hunting and Fishing @ $2.25,	$454.50
18 Resident Citizens Trapping @ $2.25	40.50
33 Minor Trappers @$ .75	24.75
* 2 Duplicate Licenses @ $ .50	1.00
255	$520.75
Fees on 253 Licenses @ 25c each (to Town Treasury)	63.25

HARRY R. FRANKLIN,

Treasurer, Town of Easton.

Report of the Board of Selectmen

To the Citizens of the Town of Easton.

A chronicle of the year 1930 covering events and conditions in any part of the world must disclose a shadow of pessimism. Paradoxical as its seems, millions are in want because they have produced so much. Until adjustment in hours of labor is made, commensurate with the effect of labor saving machinery and methods, no permanent relief will be effected.

Easton has been no exception in this calamity, though conditions here have been slightly above the prevailing average. applications for work on the town project (Park St. construction) indicated that 4.8% of our men were confronted by involunary unemployment as the year closed. That a much larger percentage were working "part time" cannot be denied.

Such industries as we have in our community should be fostered and any reasonable cooperation by town officials should be freely rendered.

Our community has been particularly fortunate during the year in the generous gift by Mrs. Louis A. Frothingham in memory of the late Mr. Frothingham. His memory is and always will be a subject of our townspeople's greatest pride.

Frothingham Athletic Field is an appropriate memorial; fitting as is possible for a human being to procure. Words are inadequate to express the gratitude of the Town to the donor for this and countless other benevolences.

Your Board felt that some proper local recognition of the Massachusetts Tercentenary should be observed and to execute this desire called upon our local organizations to be represented on a general committee. This committee, with practically no municipal financial assistance, arranged a program which was not excelled in any town in this vicinity. To Chairman Harris A. DeWitt and the members of his committee the town extends its sincere thanks.

The School Building Committee has practically concluded its duties, having turned over to the town new buildings valued in excess of a quarter of a million dollars; and in every respect a credit to the community. It is pleasing to note that in the face of this venture, in the two years during which these buildings have been erected and furnished, our tax rate has fallen nearly $4. per thousand.

A committee to study the employment situation was appointed by the Chairman of the Selectmen at the request of the State Chairman. This local committee with Mr. Leo M Harlow as Chairman proposed a plan for relief which was adopted early in January, 1931. The work of this group has been commendable.

STREET DEPARTMENT

Owing to the increased revenue received from the Ames Fund for roads, it was possible to reduce the amount to be raised by taxation by $5000. in 1930.

Our local superintendent, Frank E. Wilbur, has kept abreast of the times in methods of road building and maintainance and it is the belief of the Selectmen that the appropriation for this department has been wisely expended. Several towns are now modelling their construction to conform with work done here.

In the interests of economy a six year old truck should be replaced by a new truck of larger capacity.

Tentative plans have been arranged with the County Commissioners and the State Board of Public works for building a $40,000, section on Route 123 (to Norton) as follows: Bristol County $10,000., State $15,000., Town $15,000.

The State and County have definitely set aside their proportions as here tabulated. The town's share is dependent upon a vote of the town although $4500. is already available in the Town Treasury for this work. The Selectmen recommend that $10,500. be appropriated that we may avail ourselves of the sums appropriated by the other two Boards.

The above proposal will leave according to estimates, a section unfinished that will cost about $8,000. to build, and we have been assured by the State Board that they will assume one half the cost of this construction if the town department decides to do this work this year. If this plan is adopted the town's share of the cost may be paid from the regular street appropriation.

Traffic control at Dailey's Corner was installed as recommended in this report last year. At one time during negotiations the Board of Public Works had the town's share of the cost of this installation set at about $1800. Final settlement was made on the basis of the first estimate,$1150.

This system of control has proven to be acceptable, greatly improving a serious danger point.

An itemized record of the work done by the street department will be found in the annual report of that department.

We recommend that portions of the following streets be included in the program for 1931 as a part of the general purpose to reach all our people with surfaced streets:—North Main St.., Holmes St., the Prospect and Howard St. route from Foundry St., toward the Norton line, Central St., Highland St. and Bay Road.

Attention should be given the drainage problem on Center, Depot and Linden streets.

POLICE DEPARTMENT

Commendation of the work of this department is general. Exceptions are of a nature which might well be expected where rigid enforcement prevails. It is natural that attacks upon the department should issue from those who have failed to obtain immunity for themselves or for their friends through "political influence."

The Selectmen are of the opinion that the assurance felt in some localities that cases of traffic law violations can be "fixed" has been responsible for more killings on our high-

ways than has any other factor. Easton has too many serious accidents as conditions now are and it is regrettable that men whose standing should place them in a position cooperating in law enforcement may be found attempting to nullify it.

A canvass made by this Board among the merchants of the town resulted in disproof of the claim that business was being driven from town by over-inforcement of traffic laws.

An itemized report of this department will be found elsewhere in this volume.

Acting under a by-law enacted a few years ago the Selectmen have given numbers to houses in a portion of the town. More than half of the entire work has been done and we recommend that it be completed during the current year. The cost of this work has been less than $25. including printing and postage for the entire work.

Conferences with the telephone company urging an improvement in our local system have accomplished nothing definite but we have practical assurance that the present obsolete equipment will be supplanted by something modern in the not too distant future.

When the North Easton Water Department was formed approximately forty-five years ago it was probably advisable that it should be placed under District control. To some extent the same was true when the other two districts were formed within the town.

At the present time there exists no reasonable excuse for the continuance of the present system of water supply control. Easton has three districts and four tax rates, with a considerable section without municipal water and its attendant fire protection. The Selectmen recommend that a Commission be appointed, by the Moderator, comprising members from each section of the town to make a thorough study of this situation with a view to the acquisition by the town of all the water supply property and the extension of mains to that portion which now has no district supply, and to report at a subsequent meeting.

Our investigations have assured us that such a committee will find that many districts have been absorbed by towns in the commonwealth; that extensions of water mains can be made at the present time at a cost lower than at any time within the past 15 years; that this cost would have no effect upon the tax levy and that the reduction in insurance rate resulting from this program together with the too-long-delayed organization of a town fire department will counteract the increase in water rates to a great extent, if not entirely.

It is unthinkable that conditions due to the lack of town water in a large area should be permitted to continue.

The Selectmen have enjoyed the generous cooperation of all the town officials. Without this our work would have been far more difficult, and to these officers and to those of our citizens who have aided us in our efforts we wish to express our appreciation.

LEONARD H. PORTER
FRANK P. KEITH
FRANK C. WADE

Board of Selectmen.

Report of the Board of Public Welfare

To the Citizens of the Town of Easton:

At the close of 1930 this department was aiding thirty families as compared with twenty-two a year earlier. The industrial situation was responsible for the greater part of this increase.

In December it became necessary to resort to an emergency vote to provide money for the balance of the year. $2,385.38 was expended under this vote.

In such cases as are not receiving cash aid, orders were given the following merchants for goods in the following amounts:—

H. Y. Mitchell Co.	$ 460.42
E. W. Ericson	123.76
First Nat'l Stores	431.00
First Nat'l Stores	14.97
J. E. Howard & Sons	870.53
J. O. Dean Co.	121.68
Swift Bros.	361.37
McCarthy Coal Co.	426.90
Frank McMenamy	2,660.39
Kenneth Mitchell	648.00
J. W. Ericson	2.50

This department makes no effort to dictate as to where the people shall trade unless because of unfair prices it shall be deemed expedient.

Inmates at the Infirmary continue to receive good care under the supervision of Mr. and Mrs. James Arnold.

It will be necessary to provide for the administration of the "Old Age Assistance" act beginning July 1, 1931.

FRANK P. KEITH
FRANK C. WADE
LEONARD H. PORTER
Board of Public Welfare.

Report of the Assessors

We respectfully submit the following report of the financial condition of the Town of Easton as assessed April 1, 1930.

Value of Real Estate	$4,511,915.00

HARRY R. FRANKLIN,

Treasurer.

Summary of Ames Trust Funds Held for the Benefit of the Town of Easton

The following tabulation is compiled from figures furnished the Town Treasurer by the office of the Fund Trustees, Messrs. John S. Ames, and William A. Parker.

AS OF DECEMBER 31, 1930.

FUNDS FOR THE BENEFIT OF EASTON HIGHWAYS

	Book Value	Approximate Market Value	Income Rec. 1930	Income Est. 1931
Original Fund	335,450.93	511,322.00	24,026.63	24,000.00
Permanent Fund	45,433.44	60,739.00	1,108.40	1,108.00
	380,884.37	572,061.00	25,135.03	25,108.00

*FUNDS FOR THE BENEFIT OF EASTON SCHOOLS

	Book Value	Approximate Market Value	Income Rec. 1930	Income Est. 1931
Original Fund	305,111.62	444,178.00	21,442.57	21,271.00

*At a meeting held June 25, 1929, the Town voted to dispose of the Second or Permanent School Fund, the proceeds to be placed at the disposal of the Special School Building Committee. As of December 31, 1930 there is a reported unspent balance of $3,368.25 on this account. At such time as this Fund is fully liquidated and disbursed it is hoped to publish a detailed statement of receipts and expenditures.

HARRY R. FRANKLIN,
Treasurer of Easton.

Report of the Board of Registrars of Voters 1930

The Board organized for the year as follows:

Sigfrid V. Ledin, Chairman
Luther E. Swift
Frank A. White
Harry R. Franklin, Clerk

Three meetings for registration were held previous to Annual Town Meeting. On August 27th one session was held as required, for the State Primary. Three meetings before the State Election were held as follows.

At the Town Infirmary	October 7
At South Easton School	October 9
At Town Clerk's Office	October 15

In addition to the above meetings several sessions were necessary for correcting the voting lists, certifying nomination papers and preparing check lists showing party designations, for use at the State Primary.

The following are the figures from the Voting Lists as at the close of Registration, October 15, 1930.

	Men	Women	Total
Precinct 1	180	163	343
2	805	813	1618
3	271	236	507
	1212	1256	2468

The following votes were cast at the several elections held during 1930.

		Prec. 1	Prec 2	Prec. 3	Total
Town Election		25	118	33	176
State Primary					
	Republican	118	261	97	476
	Democratic	2	47	1	50
State Election		236	1202	353	1791

Paul E. Dow, supervisor of Census for the fifteenth district of Massachusetts announces the population of Easton as being 5298 as a result of the fifteenth census of the United States recently taken.

Report of the Inspector of Animals

To the Board of Selectmen of the Town of Easton.

I herewith submit my report for the year ending December 31, 1930.

During the year I have made 95 calls and inspected 566 cows, 26 bulls and 255 young cattle, a total of 847.

EDWARD J. MURPHY,

Inspector of Animals

January 1, 1931.

Report of the Tree Warden

To the Citizens of the Town of Easton:

The following is a report of the Tree Department for the year 1930.

Our trees throughout the town are showing the results of two very dry summers, and should we have a third dry season this year we may expect to lose many of our elms and some maples. We will also lose several young maples recently set out on Foundry and Depot Streets from sun scald and frost crack.

The dry seasons have caused many dead limbs in the trees, and the work was confined almost entirely to trimming with necessary bolting. Some parts of the town we were not able to cover through lack of funds.

The wind storm broke a large oak on Bay Road, and lightning a maple on Centre Street and an oak on Short Street. These trees were removed as also were three other maples, for maple blight, and six other trees that were dead or in a dangerous condition.

The European Elm Disease, sometimes known as Dutch Elm Disease, has appeared as near to us as Connecticut, and is a very serious menace to our elms, there being at present no known control.

It will be necessary to do a larger amount of trimming this year, and several trees need cementing or cavity work. Trees should also be set out to replace those removed, and several calls for new plantings have come in.

The truck purchased for the sprayer was also fitted with stake body and used in the work of the Tree Department. It was also called for with sprayer, upon several occasions, by the Forest Fire Warden.

New locations of electric light lines and telephone services have required much trimming, which was done by those companies under supervision of the Tree Warden.

The trees will require much more work this year, and I recommend for this department that the town raise and appropriate the sum of $3000.00.

Appropriation	$2,000.00
Expended	1,994.46
Unexpended balance	5.54

Respectfully submitted,

ROSCOE W. MELENDY,
Tree Warden.

Report of the Sealer of Weights and Measures

To the Selectmen of the Town of Easton:

I submit the following report of the work of the Sealer's Department for the year ending December 31, 1930.

	Adjusted	Sealed	Not Sealed	Condemned
Platform scales under 5,000 lbs	6	8		1
Platform scales under 5000 lbs.	12	22	2	1
Counter scales over 100 lbs.	1	2		
Counter scales under 100 lbs.	3	28		
Spring scales over 100 lbs.		7		
Spring scales under 100 lbs.	13	32		
Computing scales under 100 lbs.	7	30		6
Prescription scales		3		
Personal weighing scales		1		
Avoirdupois weights	8	215		4
Apothecary weights	0	29	0	0
Metric weights				7
Liquid measures		87		2
Oil pumps	1	24	88	
Oil jars		237		
Gasoline pumps	3	86	4	
Kerosene pumps		9		
Quantity stops on pumps	59	469		
Molasses pumps		5		
Tank wagons		1		
Yard measures		8		
Rules		2		
Totals	113	1,306	94	21

Inspections:

Paper Cartons	36

Pedlers' Licenses	10
Milk Jars	20
Marking food packages	6
Labels on bread	4
Transient Vendors	2
Pedlers' scales	10
Junk scales	4
Other inspections	4
Totals	96

Tests:

Gas Pump Retests	72
Approved paper cartons	6
Mass. standard boxes	10
Berry baskets	8
Totals	96

To January 1, 1931, the sum of $114.16 was received for sealing fees and adjusting charges and paid to the Town Treasurer.

Thru lack of funds, no test weighings were made in stores and the retest of gas pumps was not completed.

The State Inspector, on his inspections found short weight packages in several stores, and unless test weighings are made in stores and gas pumps retested, the public is not assured of obtaining full weight and measure.

That this work may be carried on in 1931, I would again recommend an increase in the appropriation and that the sum of $500.00 be allowed for the use of the Sealer of Weights and measures.

Appropriation	$400.00
Expended	398.32
Unexpended balance	$ 1.68
Receipts 1930	114.16
Net cost of department to town	284.16

Respectfully submitted,

ROSCOE W. MELENDY,

Sealer of Weights and Measures.

Report of the Board of Health

To the Citizens of the Town of Easton:

The number of infectious and contagious diseases reported in 1930 was one hundred thirty-eight, divided as follows: Measles, twenty-two; German Measles, forty-four; Chicken Pox, thirteen; Whooping Cough, twelve; Mumps, three; Scarlet Fever, four; Lobar Pneumonia, nineteen; Pulmonary Tuberculosis, nine; Tubercular Meningitis, one; Tubercular Glands, one; Erysipelas, three; Anterior Poliomyelitis, one; Malaria, one; Dog bite, five.

The deaths from reportable diseases were seven, as follows: Lobar Pneumania, four; Pulmonary Tuberculosis, two; Tubercular Meningitis, one.

The number of deaths of residents of Easton from all causes during the year was seventy-nine, being a death rate of 14.9 per thousand. The number of births was ninety-two, being a birth rate of 17.3 per thousand.

The amount expended for Tuberculosis in 1930 was $1403.60. This is an unusually large amount and is due to the number of hospital patients which the board has been obliged to care for in the past year. We have had ten patients for varying periods through the year in the Bristol County Tuberculosis Hospital at Attleboro, and we have had one patient at the Lakeville Sanatorium. At the present time, January 24, 1931, we have five patients in the hospital at Attleboro and one at Lakeville. A considerable part of the amount paid for hospital treatment of Tuberculosis patients is returned to the town by reason of subsidy payments by the Commonwealth. The amount returned, however, goes into the general fund of the town and is not credited to the Board of Health appropriation.

We are appending to our report a copy of the report of the Milk Inspector. An examination of this report will show

that the quality of milk which is sold in Easton is very good. Out of one hundred and seventeen samples analyzed, but eight were unsatisfactory, four being below the standard in butter fat and four below the standard in total solids.

The highest average butter fat content was 4.99 per cent. and the lowest average butter fat content was 3.53 per cent. The legal standard in Massachusetts for butter fat is 3.35 per cent. The highest average of total solids for the year was 14.49 per cent., and the lowest average of total solids was 12.52 per cent. The legal standard for total solids is 12 per cent., so that it will be seen that the lowest average content of butter fat and total solids was well above the legal standard.

The lowest average bacteria count for the year was 5300, and the highest average was 97,555 per cubic centimeter. The legal limit for bacteria count in Massachusetts Grade A milk is 100,000 bacteria per cubic centimeter.

This report is very gratifying, especially when compared with some of the earlier reports which we have had when we began to have milk inspected.

The board has had many complaints of nuisances in the North Easton Village District caused by the keeping of swine. These cases have been treated individually, sometimes with good results but more frequently with little or no result. Our experience has shown that it is impossible to keep swine in thickly settled parts without the swine or the conditions under which they are kept becoming a nuisance.

At a meeting of the board held on the 23rd of January, 1931, an order was passed prohibiting the keeping of swine within the limits of the North Easton Village District without a permit in writing first being obtained from the Board of Health. A copy of this order which will take effect March 1, 1931, is appended to this report.

No doubt there are some places withing the limits of the North Easton Village District where swine may be kept without becoming a nuisance. Applications for a permit will be considered by the board and will be issued only under such

conditions as will insure that no nuisance will occur. We have confined this order to the North Easton Village District for the reason that all complaints in respect to swine have come from that section. Of course, there are other sections of the town thickly settled, but there has been no demand for any such action from any other section.

At the end of the year we had bills which we were unable to pay amounting to about $500.00. The reason for this was two-fold,—first because our appropriation for 1930 was cut down to $2000.00, and second, on account of the unusual expense in respect to Tuberculosis.

We append the report of the Inspector of Slaughtering.

The financial report is as follows:

Receipts

Report of Inspector of Slaughtering

To the Board of Health of the Town of Easton:

I submit my report for the year ending December 31, 1930.

During the year I have inspected five carcasses of Beef, fifty-two of Veal, nineteen of Swine and two of Lamb.

J. CLINTON GOWARD,

Inspector.

Report of Inspector of Milk

North Easton, Mass.
Dec. 15. 1930.

To Mr. D. J. O'Connell,
Chairman, Board of Health,
Easton, Mass.

Lowest average butter fat content for year	3.53
Highest average of total solids for year	14.49
Lowest average of total solids for year	12.52
Lowest average of bacteria count for year	5,300
Highest average of bacteria count for year	97,555
Number of Oleomargarine licenses issued	6

Respectfully submitted,

LEO J. FITZPATRICK,

Inspector of Milk.

The following order was passed by the Board of Health of Easton at a meeting held on January 23, 1931.

"ORDERED: That the exercise of the trade or employment of keeping swine within that part of the Town of Easton comprised within the limits of North Easton Village District is a nuisance, hurtful to the inhabitants thereof, injurious to their estates and is attended by noisome and injurious odors. Wherefore the exercise of such trade or employment is hereby prohibited in that part of the Town of Easton which is comprised within the limits of said District, without a permit in writing first obtained from the Board of Health of Easton. This order shall take effect on the first day of March, 1931.

DAVID J. O'CONNELL,
FRANK E. TILDEN,
CORA M. HENNIGAR

Board of Health of Easton.

January 23, 1931.

Report of the Superintendent of Moth Work

To the Selectmen of the Town of Easton:

I submit the following report of work of the department for the year 1930.

I can again report a decided improvement in moth conditions, and the town is in very good condition, with the heaviest infestation showing in the North Main Street, Canton Street, and Poquanticut sections.

The appropriation at the March meeting permitted the purchase of an International truck fitted with power take-off, and with the pump mounted upon this truck, more and better spray work was accomplished.

The usual amount of creosote work was done, as was the usual Brown Tail Moth scout.

An outbreak of Elm Leaf Beetle found last year in three localities—Oliver Street section, Washington Street below South Easton Green, and Five Corners at Easton Furnace—was showing an increase this year and it will be necessary to spray this spring in these sections.

The Satin Moth condition is good, but would advise property owners to watch poplars and willows and report their appearance at once.

For the use of this department in 1931 I recommend the sum of $2733.18, the amount of the town liability.

Appropriation:

Moth	$2,000.00	
Truck	1,500.00	$3,500.00

Expended		
Moth	$1,999.72	
Truck	1,500.00	3,499.72
Unexpended balance,		.28

For expenditures in detail see Town Accountant's report.

Respectfully submitted,

ROSCOE W. MELENDY,
Superintendent.

Report of Town Accountant

I have examined the books of the Town Clerk, Collector of Taxes and Town Treasurer, also various Trust Funds and find the same to be correct.

The expenditures, appropriations and receipts of the various departments are shown on the following pages.

JOHN M. SMITH,
Town Accountant.

Report of Superintendent of Streets

To the Selectmen of the Town of Easton:

I submit the following report of the activities of the Street Department for the year 1930.

During the Winter and early Spring months the program was wholly one of maintenance of country roads, snow removal, sanding slippery streets and walks, removal of brush, etc.

Country roads receiving applications of gravel were as follows: Bay Road, Rockland St., Massapoag Ave., Highland St., Church St. and Chestnut St.

Approximately 62,000 gals. of Tarvia was applied, 30,000 gals. of which was used in maintenance and 32,000 for new surfaces. New construction was as follows: 750 feet of penetrated macadam on Union Street, completing surface to Brockton line.

Andrews St. was excavated, built up to grade and surfaced with a macadam top. The gutters on Main St., from corner of Canton Street to Sullivan Street were surfaced in the same manner. Other gutters improved and surfaced in this way were Pond Street, Seaver and Williams Streets at the approaches to Main St., Turnpike St., from Lothrops Corner to the railroad bridge and several smaller jobs. Barrows Street in front of the new High School was cut to conform with the lawn grade, widened and macadam surfaced.

Gravel penetration was employed in the construction of 7,000 ft. on Foundry Street from near the Five Corners to Greenleaf's Corner and 1500 ft. on Purchase St., from Church St. to Depot St. On Columbus Avenue the old surface was not disturbed but was extended on both sides from 6 to 11 ft. to the curb lines. Main St. was widened at the Brockton line where the ledge had been cut back last year. The ledge and side walk in front of the residence of Dr. Stevenson, opposite

the end of Barrows St., was cut back to allow the widening of a dangerous intersection. The grass plot on the easterly side of Washington St., at So. Easton Green was reseeded and bordered with a block curbing. About 2,000 feet of metal guard rail was erected and some old wood railing replaced.

A second hand Sargent snow plow of 18 ft. capacity was purchased for the Meade Morrison tractor for use in light or average snow fall.

The Moth Dept, truck has been equipped with an eight foot blade plow and a similar plow bought for a light tractor. A new tar kettle was also purchased.

Respectfully submitted,

FRANK E. WILBUR.
Superintendent of Streets.

Jan. 31. 1931.

Report of the Chief of Police

January 24, 1931.

To The Selectmen of Easton
Leonard H. Porter, Chairman

I submit my report as Chief of Police for the Town of Easton, year ending December, 1930.

There was 14,927 miles covered by officers in automobiles, 204 complaints were investigated, 121 complaints prosecuted in Court, 30 services made for other police departments, fines of $1,227.00 were imposed by the Court, 41 doors were found open by the night officers, 9 boys were returned to their parents or proper authorities, property valued at $2,373.80 was reported stolen, property valued at $2,232.20 was recovered.

Description of Court Cases

1 Assault with intent to rob
2 Assault and Battery
1 Begetting
4 Breaking and entering and larceny
1 Concealing leased property
6 Drunk
3 Disturbance
1 Indecent assault
2 Liquor
1 Larceny
3 No-support
1 Peddling without license
1 Possession of lottery tickets
1 Robbery
1 Suspicious person
1 Stubborn child
1 Sale of leased property
35 Failure to slow at intersection
8 Failure to keep to the right

8 Disobeying traffic signal
1 Improper equipment
2 Leaving the scene of accident
14 Operating negligently
3 Operating without license
2 Operating without registration
4 Operating impeded
1 Operating after suspension of license
4 Operating under influence of liquor
8 Speeding

ELISHA T. ELLIS,

Report of Finance Committee

The following tabulations show that the total appropriations for 1930 were $186,084.48. To this must be added such special appropriations as may appear in the 1931 Warrant to cover overdrafts and unpaid bills of 1930. These are confined to the Public Welfare and Public Health Departments, and emergencies of this character must necessarily be met and overdrafts in such cases are authorized by state authorities. Your committee recommendations upon such proposed appropriations as have been thus far submitted for 1931 total $175,137. To this should be added the $5000. raised and appropriated at the special town meeting January, 1931, together with such proposed appropriations as are not herein included and may be brought to your attention by special articles in the warrant. By adding these items together comparison may be had between the appropriations covering the requirements of 1930 and those proposed for 1931.

Your committee regretfully learn that Mr. Porter is not a candidate for re-election as a Selectman and also as a member of the Public Welfare Committee. During his years of service he has had the best interests of the town at heart and his services are appreciated.

The numbering of all the residences in town is worthy of commendation, especially as it has been effected without the customary additional expense of several hundred dollars. Street signs and traffic warnings have been established to an extent not previously reached.

BUYING AT HOME

Your committee believes that so far as possible all town departments should employ local labor and purchase supplies

locally when the financial interests of the town can be as well served thereby.

ROUTE 123

The route known as "123," running via Foundry Street to connect at the Norton line with the state road already completed under joint arrangements with the State, the County, and the Town of Norton, can be finished this year. It is doubtful if the County help can again be secured if this offer is not accepted in 1931. The road is now a difficult one to maintain and this final connecting link in a through road to Attleboro, Pawtucket, and Providence should be completed.

POLICE DEPARTMENT

Some idea of the court work accomplished under Chief Ellis can be gleaned from the report of that department published elsewhere in this book, (page 111.) Every citizen should read it. Necessarily it cannot fully record the work of this department, nor fully indicate the wide scope of its activities.

The accounts of last year show that a total of $8000. was appropriated for the Police Department. $1328.11 was returned to the general fund by court fees, fines, and unexpended balances, making an actual cost of the department to the Town of Easton of $6671.89. Your committee has carefully studied the budget for 1931 and believes the amount it recommends to be fully warranted.

AMES BEQUESTS

Income from this source in 1930 exclusive of the large amount applied to the new school buildings and also exclusive of an annual income direct to the North Easton district, which this year totaled $3340., was received from the town as follows:

School Department	$13,442.57
Applied on School Bonds	8,000.00
Road Department	25,135.03
Total	$46,577.60

Respectfully submitted,

By the Finance Committee

SCHEDULE OF "NO SCHOOL" SIGNALS

Signal: 2-2-2 on fire alarm system.

7:45 A. M.—No session at Junior Senior High School for the day.

8:00 A. M.—No session in outside schools for the day. No session at North Easton Grammar School for the morning.

12:45 P. M.—No session at North Easton Grammar School in the afternoon.

Annual Report of the School Committee

To the Citizens of Easton:

The School Committee herewith submits the one hundred and third Annual Report:

NEW BUILDINGS

The important task of the Building Committee in conjunction with the School Committee to carry out the school building program is practically completed, except for a few minor details. The grading and landscaping at the junior-senior high school will be finished in the spring. It might be well to note that this building program has been carried out within the appropriation. The new Eastondale School was formally dedicated in June with appropriate exercises. This modern building is proving a valuable asset to the community. The two rooms with two grades in each room are proving satisfactory in every respect. The fifth and sixth grades attending the South Easton School have the advantage of having the work uniform in these grades. The addition to the North Easton Grammar School was informally opened to citizens in May. The advantage of the additional rooms is proving to be of material value to both teachers and pupils.

The new addition to the high school was formally dedicated during tercentenary week with appropriate exercises. The value of the assembly halls in these new buildings as educational and social centers for school activities will be more pronounced as time passes. The school assembly has a tendency to bring to the surface latent talent in the pupils along dramatic and musical lines. Appearing before an audience inspires confidence on the part of pupils. The new gymnasium is proving a valuable asset for physical education activities.

SEMI-ANNUAL TO ANNUAL PROMOTIONS

For the past two decades the schools of Easton have had two promotions a year, one in February and another in June. After an exhaustive study of the situation the Committee decided to favor one promotion a year. Several advantages are gained by this change: (1) Many rooms at the North Easton Grammar School will have one grade instead of two. (2) Junior High School divisions can be made up on an ability basis and can be better regulated as to size. (3) The promotion of a group from junior high school to high school in February each year is eliminated after 1931. (4) The overcrowding of high and junior high school teachers' schedules during the second half year to take care of new comers in February is eliminated. The class program made out for September will be effective throughout the year in the future. (5) More flexible class schedules in the junior-senior high school will be possible.

CENTER SCHOOL

Lack of a sufficient number of pupils attending the Center School prompted the Committee to seriously consider closing the school in June of 1931, but the untimely death of the teacher, Miss Helen Pringle, changed that plan and the school was closed in January. Of the pupils attending this school one was sent to the Union School, three to Eastondale and twelve to South Easton. The educational advantages afforded the pupils by this change cannot be over-estimated. The main part of this building was built in 1856. In 1902 the north room was added and it is well to note here that this part of the building is minus a cellar, which fact no doubt accounts for the frequent school holidays when this room was in use. About thirty years ago this building housed 80 pupils. Two teachers and an occasional helper were hired. If this building is used at any future time a substantial appropriation of money will be necessary to place it in the class with the modern, up-to-date school buildings of this period.

MISS HELEN PRINGLE

"Death loves a shining mark." At no time in the history of the Easton schools was this more apparent than in the passing of Miss Pringle, teacher at the Center for the past two and one-half years. Miss Pringle was a native of Concord, and a graduate of Leslie Normal, Boston. She began work in Easton October, 1927 at South Easton School and taught grade two there for the remainder of the school year. She was then transferred to the Center School, serving from September 1928 to December 1930. She died December 29, 1930. Miss Pringle was a faithful, conscientious teacher and her charming personality won for her many friends. She will be missed in school circles.

REPAIR OF SCHOOL DESKS

All pupils' desks at the junior-senior high school, the North Easton Grammar School, the South Easton School, the Eastondale School and the Poquanticut School and one room at the Union School were varnished and where needed were resurfaced, during the summer. Our School furniture is in excellent condition except at the Poquanticut School (one room), Unionville School (one room) and the South Easton School (one room). All classrooms in town have modern adjustable furniture, except the three noted above, and our 1931 budget provides for new desks and seats at Poquanticut School.

INSURANCE

The insurance on school property which has been an important factor in our budget for 1930 and 1931 should drop to about $2,100.00 next year. Construction work on the new buildings increased this item in the budget materially. The School Committee is at the present time considering insurance which will be of decided advantage to the Department.

RULES AND REGULATIONS

The 1917 Rules and Regulations of the School Committee were somewhat changed and revised last year. These were brought up-to-date and a few new rules added which the Committee felt would be advantageous in the administration of school affairs.

RETIREMENT OF GEORGE M. SYLVESTER

The School Committee recognizes with gratitude the long and faithful service of George M. Sylvester, for more than thirty years janitor of Junior High School. He commenced work with the Department on September 1, 1900 and retired from active service September 1, 1930. Teachers and superintendents found him helpful and cooperative at all times.

EXPENDITURES FOR REPAIRS, NEW EQUIPMENT AND PERMANENT IMPROVEMENT, 1930

The following table summarizes expenditures for these purposes by schools:

School	Repairs		Furniture & Furnishings Replaced	New Equipment	Permanent Improvement
	Exterior	Interior			
Jr.-Sr. High School	.....	$1,489.57	$ 111.35	$ 627.18	$ 467.45
Old Junior High School	.....	83.50	24.32	14.00	9.43
N. Easton Grammar School	$88.06	207.07	36.00	20.12	12.85
South Easton School	2.28	33.19	36.77	.....	56.43
Union School	2.28	50.52	17.00	.....	18.86
Center School	12.81	22.62	1.50	.....	.....
Unionville School	15.43	12.07	.....	.....	.....
New Eastondale School	25.00	4.05	.....	.....	60.98
Poquanticut School	.....	20.25	1.50	.....	.....
Outside School	.....	.....	.....	119.39	.....
Total	$145.86	$1992.84	$ 228.44	$ 780.69	$ 626.00

THE BUDGET FOR 1931

The summary of School Department expenditures for the year 1930 is shown below, and in a parallel column a distribution of the proposed 1931 budget is shown. The budget is generally similar to that of a year ago.

BUDGET 1931

	Expended 1930		Needed 1931	
General Control		1,711.74		1,859.00
School Committee				
Trav. Expense	31.54		50.00	
Office Expense	179.24		150.00	
Telephone	111.16		110.00	
Superintendent's Expenses				
Trav. Expense	166.58		220.00

Fuel	3,478.20		4,097.00	
Janitors' Supplies	658.64		650.00	
Water	202.11		260.00	
Electricity	875.48		1,075.00	
Physical Education	325.00		.....	
Miscellaneous	112.47		140.00	
Maintenance		2,297.14		3,241.00
Repairs	2,068.70		2,500.00	
Furniture and Furnishings	228.44		741.00	
Health		1,904.43		2,075.00
Salary of Physician	600.00		600.00	
Salary of Nurse	900.00		1,100.00	

Transportation	366.19		275.00	
Supplies	38.24		50.00	
Miscellaneous	.....		50.00	
Transportation		8,886.40		8,765.00
Tuition		77.41		400.00
Sundries		4,026.07		2,800.00
Teachers' Convention	69.87		100.00	
Graduation	117.89		125.00	
General	199.56		125.00	
Insurance	3,638.75		2,450.00	
Outlay		1,406.69		1,010.00
Permanent Improvement	626.00		300.00	
New Equipment	780.69		710.00	
		$107,176.22		$108,605.00

BUDGET SUMMARY

A. 1930			
Appropriation, Town Meeting, March, 1930			$ 93,761.00
Receipts, Oliver Ames Fund, 1930	$21,442.57		
Set aside for payment of interest and retirement of bonds	8,000.00		
Available for school expenses			13,442.57
Total Receipts			$107,203.57
Total Expenditures			107,176.22
			$ 27.35
B. Total amount requested in 1931			$108,605.00
Estimated from Oliver Ames Fund	$21,270.00		
To be set aside for new buildings	8,000.00		
Available for routine expenses			13,270.00
Net appropriation requested			$ 95,335.00
C. In 1930 the following sums were received by the Town:			
General School Fund			$10,800.00

Tuition of State Wards and Non-resident Pupils	3,688.58
Supplies sold, telephone toll calls, etc.	196.64
Received from Easton Board of Health, Milk Testing for 1929	98.33
State Reimbursement, Trade School and Continuation School Tuition for school year, 1928-29	209.58
Received from teachers paid from Oakes Ames Fund, for Teachers' Retirement Association	62.00
	$15,055.13

Respectfully submitted,

MARY L. HOWARD, Chairman

ARTHUR F. ANDERSON

HEMAN HOWARD

Report of the Superintendent of Schools

To the School Committee of Easton:

Herewith is submitted for your consideration the report of the Superintendent of Schools for the year ending December 31, 1930. This report is the forty-fifth in the series of annual reports from this office, and the sixth which it has my privilege to prepare. Following this report are the usual financial and statistical tables and other information which it seems advisable to record.

The year 1930 has seen the completion, with some very minor exceptions, of the school building program authorized by the town in June, 1929. The new buildings have been occupied for several months. Their occupancy brings to a close a series of changes in organization and procedure and permits the schools, with the opening of 1931, to settle down to a more steady routine than has been possible during the last year and a half. Many of the items discussed in the following pages were in the process of transition last year and were discussed from a somewhat different angle in the 1929 report.

THE HIGH SCHOOL PLANT

The Six Year High School. The completion of the addition to the Oliver Ames High School building enabled the junior high school grades to occupy rooms in the high school building when the fall term opened in September. The former junior high school and the former senior high school have now been organized as a single six year unit, with the senior high school principal as principal of the six year school, and the junior high school principal as assistant principal, in accordance with the recommendations made in the 1929 report. Miss Conley continues to have immediate supervision of classroom work in grades seven and eight and of administrative details concerning these grades. Mr. Campbell has similar duties for grades 9 to 12 inclusive. In other words, the present organiza-

tion, while providing an administrative head for the six year school, changes the actual duties of these two members of the staff very little. This merging of the two schools has worked out very acceptably. Regarding it, Mr. Campbell in his report says, "We are securing much better understanding and cooperation between teachers of both groups than was at all possible even with the closest alliance between the two schools under separate roofs."

The Library. The alteration of the original high school building resulted in providing a commodious library room. Shelving with room for 2,000 volumes has been put in place, and there is room for additional shelving when the need arises. The library books of both the junior high and senior high schools, numbering about 1,700 volumes, were collected last summer, classified and marked according to the Dewey system, catalogued and placed on the shelves. The Building Committee provided a desk, five tables and thirty-one chairs for the room. We now have a fine high school reference library for a school the size of ours.

Commercial Department. The alterations to the high school building made it possible for the first time to house our three-teacher commercial department in a suite of three connecting rooms. The three northerly rooms on the second floor of the original building have been assigned to this department. Miss Margaret Dolan, head of the department, says in her commercial department report: "It certainly is convenient and time-saving to have all commercial rooms together, and all commercial textbooks, supplies and equipment easily accessible."

Science. The science department now has two specially equipped classrooms and an instructor's work room at its disposal, along with abundant storage space. One class room is equipped with Lincoln tables with twenty-four pupil stations, with water, gas and electricity at each pupil station. The other room is used for biology and general science, and has gas at twenty-four pupil stations. Each room has a Kewanee demonstration table for the use of instructors. Each room is adaptable to other class use when not used by science classes.

Household Arts. This suite of rooms consists of a sewing room, a cooking room equipped with six gas ranges and Kewanee tables, and a small room for use as a demonstration dining room or sleeping room.

Cafeteria. The cafeteria was remodelled and enlarged during the summer. This department has been self-supporting, paying the wages of the cook, for all supplies and for gas. A balance which had accumulated during the year made it possible for this department to purchase a steam table which was built into the new counter. When completely equipped the cafeteria will have a seating capacity of from 250 to 300.

The Woodworking Shop. For the first time in the history of Easton schools this department is properly housed. The rooms consist of the large main shop, the finishing and varnishing room and the instructor's room and office. A band saw is needed for this department and several additional work benches should be eventually provided.

Physical Education. Few high schools anywhere have better facilities for a successful physical education program than has the local high school. The gymnasium itself is ideal in size, and the boys' shower and locker room under the north balcony and the girls' shower and locker room under the south balcony amply care for the needs of this department. The two instructors' offices are conveniently located. The fine new Frothingham Memorial Field a few rods south of the high school provides unexcelled opportunity for outdoor work in the spring and fall. During the cold months the gymnasium is the most used room in the building, accommodating as it does classes in physical education for twenty-four of the twenty-six periods of the school week and assemblies the other two, while various athletic activities fill the time schedule from the close of school in the afternoon until five o'clock or later, making it necessary to hold rehearsals for numerous activities in dramatics in the early evening.

Music and Art. These activities were not properly provided for in the addition to the high school building. This was not an oversight of the Building Committee, but was due to the fact that funds would not permit special rooms for these

departments, especially in view of the fact that each has only a half-time program in the junior-senior high school. The problem has been solved fairly satisfactorily for the music work by equipping a classroom for this purpose, the room being used for other class work when not in use for music classes. The art work has been provided for in a basement room. The natural lighting of the room is not good, and much of the time it has to be supplemented by artificial lighting. The room is provided with a sink and running water. The disadvantages of the room are partly offset by the fact that it has been possible to set aside the room for the exclusive use of art classes.

Capacity of Building. The junior-senior high school enrollment at present is about 450 pupils. Undoubtedly another hundred could be accommodated without serious crowding. So far as present indications are reliable, the capacity of the building is sufficient for many years.

ELEMENTARY SCHOOL BUILDINGS

North Easton Grammar School. The year 1930 witnessed for the first time in many years the housing of elementary pupils in buildings entirely away from junior and senior high school pupils. This was made possible by the enlargement of the North Easton Grammar School building through the addition of four class rooms and the kindergarten room. Eleven of the twelve class rooms are now in use, leaving the other available for future needs. The kindergarten room is well adapted for kindergarten purposes, in marked contrast to the room formerly used.

Eastondale School. This building was first occupied on April 14, 1930. Grades 1 to 4 inclusive are now housed in the two rooms of the building. This building, with its auditorium-gymnasium capable of seating 150 persons, is a model of its kind; in fact it has already been duplicated (with the addition of the third room planned for) in a neighboring town.

Union School. This building is the only one now in use in town which is unsatisfactory from the hygienic viewpoint. The building was erected in 1867, and structurally has not been

modernized since that time. From time to time modern improvements have been added, such as hot water heat, water, electric lights and modern toilets. The classrooms are large and are lighted from two sides. This cross-lighting is unhygienic and inadequate. Parents of children served by this building would be entirely justified in demanding better housing for their children than this building affords. The building could be modernized but the alterations required, if done for permanance, would require a "major operation" to the building which would be too expensive to be cared for by the regular school appropriation. I suggest that during 1931 architects' plans for remodelling this building be secured, with estimates of the expenses, and that the matter be laid before the town in 1932.

Other Schools. The Center School was closed on January 9, 1931 and the 16 pupils assigned to other schools. This building has outlived its usefulness as a school building, in my opinion. The classroom in use until the building was closed had windows on three sides, with no electric lighting. The building was heated with a hot air furnace which frequently allowed coal gas to get into the room. Modern toilet facilities and water in the building were lacking. The Unionville and South Easton buildings are reasonably modern and in good shape. The Poquanticut building lacks electric lights and modern sanitary facilities, and the hot air furnace needs some work done on it. The old Eastondale building closed in 1923 and the building in the Howard district, which was closed in 1924, are still in the care of the School Committee. It seems unlikely that they will ever be used for school purposes again. Since they are deteriorating rapidly, they should be disposed of as soon as possible, in my opinion.

Grades per Room. Several factors have worked to reduce the number of grades in a room in some of the schools. At the South Easton School and at the Eastondale School, each room has two grades. At the Union School each room has three grades. At the North Easton Grammar School, the abolishing of the semi-annual promotion plan has greatly reduced the number of rooms having two grades in a room. The one-room

Unionville School has five grades and the one-room school in the Poquanticut district has four grades. Some plan should be worked out to reduce the number of grades at the Unionville School. Taking the town as a whole, less than fifty pupils are in rooms where there are more than three grades, and less than 125 pupils are in rooms with more than two grades. This is a distinct advance over previous years.

TEACHER CHANGES

During the year 1930 only three teachers resigned from service in Easton schools. Miss Mary M. Ferris accepted an offer to teach in the Lawrence schools, and Miss Myra Hutchinson accepted a position in the Belmont schools. Miss Ingeborg Norling resigned to be married. Miss Helen Pringle was lost to the school system through her untimely death in Decemmer, after slightly over three years' successful teaching in town.

New teachers were employed in 1930 as follows:

Miss Eleanor I. Hartling, a graduate of the Framingham Normal School degree course, with one year's teaching experience, succeeded Miss Hutchinson in the Household Arts department of the Junior-Senior High School.

Miss Agnes Osgood, a graduate of Colby College, with four years' teaching experience, took Miss Norling's place as head of the English department at the High School.

Miss Hilda Ramsay, a graduate of Aroostook (Maine) State Normal School with about four years' experience, was assigned to the Union School, taking the place of Miss Roberta Kellogg who had been transferred to fill the vacancy caused by the resignation of Miss Ferris.

Miss Martha Johnson, a graduate of Bridgewater Normal School, two year course, in 1930, was given a substitute's appointment and assigned to grades 3 and 4 at the South Easton School.

Miss Mary Gleason was appointed to fill the vacancy at the Poquanticut School caused by the transference of Miss Astrid Nyquist to the North Easton Grammar School. Miss Gleason is a graduate of Bay Path Institute and has taken a two year course for elementary teachers at the Teachers College of the University of California. She has had six years of experience.

A check-up of the above statements regarding teacher changes will show a net increase of two in the number of teachers employed in September, 1930, over the previous year. This increase was reduced to one when on the death of Miss Pringle the Center School was closed.

Our 1931 report will record the resignation of Howard A. Tozier, supervisor of physical education, to accept a position in the Hingham schools, his resignation taking effect on January 16. Mr. Arthur L. Gemme, a graduate of Springfield College with seven years of experience in school and boy scout work, has been engaged as his successor.

CURRICULUM WORK

Our 1928 and 1929 reports called attention to work on course outlines and curriculum revision. These outlines have been typewritten and copies are on file and in the hands of high and junior high school teachers covering all courses in grades 7 to 12 inclusive. Many of these were further revised during the winter of 1930. Many of them represent a great deal of work on the part of teachers.

In the grades the outline of the course in reading has been in use nearly two years and has been very helpful. A committee consisting of Miss Stone, Miss Canegaly and Miss Harris has been appointed to study this outline further, with a view toward putting the outline in better shape during the present school year.

A year ago a committee consisting of Miss Astrid Norling, Mrs. Earle, Miss Barrows and Miss McFadden developed a course outline in Health Education. The same committee has been continued this school year to study further and revise the outline.

Accompanying the adoption of new textbooks in history and geography in grades 4, 5 and 6 came the need for a course outline of our own in these subjects. Mrs. Hurst, Miss Harvey and Miss Marshall have been appointed a committee to work on this project during the present school year.

In arithmetic, the course of study for grades 1 and 2 which was developed in the Revere Public Schools has been adopted for use in Easton. A committee of teachers is at work this school year studying arithmetic textbooks, with the intention of choosing one for use in grades 3 to 6 inclusive. Another committee is working on the problem of selecting spelling textbooks.

EDUCATIONAL MEASUREMENTS

Our 1929 report went into a somewhat detailed discussion of scholarship standards and educational measurements. A program of measurement of educational achievement through use of standardized tests similar to the 1929 program was carried out in May and June, 1930.

Stanford Achievement Tests. The Stanford Achievement Test, Form W, was used in grades 2 to 8 inclusive. This test covers the fields of reading, spelling and arithmetic in grades 2 and 3, and reading, spelling, language, literature, history, geography, hygiene and arithmetic in grades 4 to 8 inclusive. As explained in the 1929 Report, the results of this test give two general types of scores, as follows:

1. On an age basis our various grades are all accelerated from 5 to 12 months, with the exception of the group which composed grade 4B last spring. This means that our pupils in the grades and the junior high school have reached on an age basis a point in achievement from 5 to 12 school months beyond the average of the thousands of pupils on whom the standards were based. The exception, grade 4B (June, 1930) had failed to reach standard achievement by two months. This group contained only 18 pupils, several of whom were markedly overage for their grade. The removal of two or three pupils from this group would have brought the average of the remainder up to standard. Table I (page 30), gives the figures as of May and June, 1930.

2. On a grade basis all of our grades scored above standard except grade 4B (June 1930), which was exactly at its grade standard, and grade 7A (May 1930) which was two months below standard. Table II, page 30, shows the grade scores made (May and June 1930).

It is a simple matter to make the conclusion from the two tables (page 30) that on the average our grades are doing standard work, in spite of the fact that our pupils average younger in the grades than is general. When compared to 1929 scores, our 1930 results were most pleasing in two respects:

(1) The tendency of junior high school grades in 1929 and in previous years to score somewhat below their grade standards was eliminated in 1930. On an age basis the junior high grades (7B to 8A inclusive) scored from 5 to 12 months above standard. On a grade basis grades 7B, 8B and 8A were above standard and grade 7A was two months below standard. This grade a year ago as grade 6A was three months below standard; hence this grade did the work of eleven school months in ten months, if our tests measure accurately.

(2) The tendency toward higher grade scores in history, geography and hygiene was noticeable. In 1929 we reported a tendency toward low grade scores throughout grades 4 to 8 inclusive in history, geography, hygiene and literature. Our 1930 scores show encouraging gains over 1929 in history, geography and hygiene, but no gain in literature in spite of added emphasis on this subject. I am told that other Massachusetts school systems are having trouble in reaching the standards set by the tests in the subjects mentioned above, notably the town of Reading which has a school system recognized as one of the most progressive in the State. Our hygiene grade scores were above standard except in grades 7B and 7A; in geography we exceeded standard scores except in grades 4B, 5B, 6B, 7Aand 8A. In history only grades 4B, 5B, 5A and 6A exceeded the standards. It should be born in mind that our average grade scores (into which history, geography and litera-

ture scores were averaged) were standard or above standard except in grade 7A, as shown on page 30. Our scores in reading, spelling, language and arithmetic are uniformly well above the standard scores.

Besides providing a device for measuring the general efficiency of instruction the Stanford Achievement Tests have a use which is far more valuable,—that of providing much information about the individual pupil when teachers attempt to diagnose his difficulties. A "profile chart," showing just where he stands in each subject in relation to a standard, is made up for each pupil, and frequent reference is made to it by teachers. All of our teachers recognize the fact, of course, that the point of attack in attempting to attain high scholastic achievement in their classes is the individual pupil and not the group as a whole. To the study of individual differences in pupils, the Stanford Achievement and other test results make valuable contributions.

Tests in High School. The 1930 testing program was similar to that used in 1929. The tests used and scores achieved, are given below:

(1) American History. Test used, Columbia Research Bureau American History Test, Form A. Grade tested, Juniors. Easton mean score 65.7. Standard mean score, 114. (The standard mean score was based largely on scores made by seniors in the Dewitt Clinton High School of New York City.)

Table I Comparing Average Chronological Ages And Average Educational Ages

Grades 2-8, Easton, June,* 1930

Grade	2B	2A	3B	3A	4B	4A	5B	5A	6B	6A	7B	7A	8B	8A

Difference in Months	+11	+9	+12	+11	--2	+8	+12	+9	+8	+8	+12	+5	+11	+8

Table II Comparing Average Grade Scores Made By Easton Pupils With Standard Scores

Grades 2-8, June,* 1930

Grade	2B	2A	3B	3A	4B	4A	5B	5A	6B	6A	7B	7A	8B	8A
Av. Grade Score, Easton	3.1	3.4	4.0	4.4	4.4	5.3	5.6	6.4	6.6	7.2	7.4	7.6	8.7	9.0
Standard Grade Score	2.4	2.9	3.4	3.9	4.4	4.9	5.4	5.9	6.4	6.9	7.3	7.8	8.3	8.8
Difference in School Months	+7	+5	+6	+5	0	+4	+2	+5	+2	+3	+1	−2	+4	+2

*Grades 7B to 8A inclusive were tested in May, 1930.

(2) Cooking. Test used, King-Clark Foods Test. Grades tested, 8B, 8A and 9. Easton median scores: 8B, 33; 8A, 39; Freshmen, 44. Standard median scores, (none given for 8B) : 8A, 33; freshmen, 36.

(3) English, Freshmen and Sophomores. Test used, Tressler English Minimum Essentials Test, Form B. Easton median Scores: freshmen, 35; sophomores, 48.5. Standard median scores; freshmen, 46.1; sophomores, 53.6.

(4) English, Juniors and Seniors. Test used, Cross English Test, form C. Easton median scores: juniors, 138, seniors, 144. Standard median scores: juniors, 135; seniors, 140.

(5) Chemistry. Test used, Powers General Chemistry Test. Form B. Easton median score, college chemistry division, 30; practical chemistry division, 21. Standard median score, 36. (The subject matter of the Practical Chemistry course differed greatly from that of the College Chemistry division and from that of the test.)

(6) Physics. Test used, Columbia Research Bureau Physics Test, Form A. Easton median score, 65.5. Standard median score, 46.

(7) Biology. Test used, Ruch-Cossman Biology Test, Form A. Easton median score, 31. Standard median score. 37.

(8) Plane Geometry. Test used, McIndes Geometry Test, Form A. Easton median score, 39. Standard median score, 38.

(9) Algebra. Test used, Columbia Research Bureau Algebra Test, Form A. Easton median scores: freshmen, 11; juniors, 32. Standard median scores: freshmen, 16; juniors, 30.

(10) Trigonometry. Test used, American Council Trigonometry Test, Form B. Easton median score, 56.5. Standard median score, 70.

(11) Latin. Tests used: freshmen, New York Latin Achievement Test; sophomores, juniors and seniors, White Latin Test, Form B. Easton median scores, freshmen, 108; sophomores, 119; juniors, 139; seniors, 141. Standard median scores: freshmen, 132; sophomores, 121; juniors, 147; seniors, 167.

(12) French. Columbia Research Buereau French Test, Form B. Easton median scores: French I, 86; French, II, 118; French III, 188. Standard median scores: French 1, no standard given; French II, 152; French III, 185.

The above summary shows better than standard work in the following: Cooking, English (Junior and Seniors,) Physics, Plane Goemetry, Algebra (Juniors), French (Third year French only). Work below standard was indicated in the following: American History, English (Freshmen and Sophomores), Chemistry, Biology, Algebra (Freshmen only), Latin, French (except third year), Trigonometry.

This record of the high school is not as good as the one made a year ago, and is far from satisfactory. It should be borne in mind, however, when considering the above scores, that working conditions at the high school were very bad throughout the school year, due to the extensive alterations to the high school building and the construction of the addition to it. As an example of the handicaps under which these teachers and pupils worked, we mention the fact that the chemistry laboratory was partitioned, part into corridor and part into a teachers' room, in April, handicapping and curtailing laboratory work in chemistry during the remainder of the school year.

As stated in the 1929 Report, testing programs like that outlined above are most helpful to teachers and to those in supervisory positions in detecting unsuspected weaknesses and points of unsuspected over-emphasis in our teaching work. The question may properly be raised as to the reliability of the standard scores accompanying the tests. No doubt much remains to be done before many of these high school tests are properly standardized.

Again, teachers are often placed in an unfavorable light by test results. The wide variability in individual abilities is universally recognized. Viewed from the standpoint of scores made on a testing program, fortunate is the teacher who has a group composed of pupils of better than average ability.

HEALTH CLINICS

Tuberculosis Clinic. The annual follow-up clinic, as a part of the ten year program initiated in Easton in 1928 by the local and state departments of health, was held in June. The following summary is taken from the clinic's report to us:

No. Children examined (these children were previously designated as hilum tuberculosis cases (7) or as suspicious (23) 30
No. children found to be improved 24
No. children found to be unimproved 5
No. children recommended for discharge from clinic 1
No. Children diagnosis deferred 1
No. children recommended for summer camp 2
No. children recommended for Mass General Hospital 1
No. children dropped from list because of persistent refusal to allow examination 3
No. children absent from examination this year 3

Diptheria Clinic. This clinic is conducted by the local Board of Health, assisted by the State Department of Public Health through District Health Officer, Dr. Richard P. MacKnight, and with the cooperation of the School Department. It is the intention of the three agencies involved to make this clinic an annual affair, in an effort to reduce the number of cases of diphtheria occuring in town to the vanishing point. Due to a variety of reasons, the clinic which should have been held in November, 1930, was postponed until January, 1931. Hence it will be reported in the 1931 Report.

PHYSICAL EDUCATION AND ATHLETICS

In 1924 a comprehensive program in physical education was introduced into the school system, in accordance with the state law. A supervisor of physical education (Mrs. Alta G. McLeod) was appointed to supervise physical education work in the grades and to take direct charge of physical education classwork with girls in the junior and senior high schools. A male teacher (Mr. Taylor) was appointed to do part time work in physical education and part time teaching in science. A

year later Mrs. McLeod resigned, and it was decided to employ a male supervisor, with a part time woman assistant for work with the girls' classes in the high and junior high school. In 1927 a full time assistant for work with the girls was employed, and that arrangement is in operation at the present time. Each of these physical education instructors has majored in physical education, the present supervisor (Mr. Gemme) being a graduate of Springfield College, and the woman assistant (Miss Norling) is a graduate of the Posse School of Physical Education and of Boston University. The new buildings and the new Frothingham Memorial Field have added much needed facilities for carrying on this program.

Closely allied to physical education in the schools are the athletic activities of school teams at the high school. We have tried to take a sane attitude toward school athletics. We believe that the work of the physical education instructors should place the emphasis on the physical education work, where all pupils are reached, rather than on the athletic teams composed, as they are, of a comparatively small number of the best physical specimens in the student body. In other words, we believe that the rank and file of the student body of the high school needs the major attention of these specialists in physical education more than do the members of athletic teams. This policy carried to its logical conclusion leads to a viewpoint towards athletic teams which sees them as an outgrowth of the class work in physical education. Our eyes are open to the educational value of interscholastic athletics properly managed, particularly the training in good sportsmanship, self control and character building which they give and, further the general effect on school morale which they produce. Most wholesome entertainment is also provided.

Interscholastic athletics not properly managed, or overemphasized, not only defeat the aims set up above, but result in the placing of wrong values on other school activities, including academic work. I believe that athletics in the Oliver Ames High School are being handled at the present time on a plane more likely to bring out their true values than ever before. This does not mean that the present policy is the one

most productive of winning teams, although our teams are receiving able coaching.

The following statement is taken from the annual report of Principal Gilman H. Campbell:

"One of our biggest problems is that of athletic finances. We are now approximately $175.00 behind with none too much optimism as to our future. Football paid for itself and also for the girls' hockey, and left a small credit balance as well as an inventory that shows an increase in value. Basketball will undoubtedly pay for itself and for girls' basketball as well. Baseball and track, however, if judged by past performances are likely to be considerably short of paying their way. The girls' sports, from a financial point of view, are practically total losses. Frankly I do not regret this at all and I prefer not to have their games commercialized. As I see it we have three choices: (1) We can spend a lot of time and effort preparing and presenting shows, fairs, dances and the like to raise funds to carry on athletics; personally I feel that such activities cannot be conducted to the extent we might find necessary to keep our bills paid without doing harm to our real school work. (2) We can reduce expenses, either by cutting down on our participation in athletics or by handling those we have in less careful fashion. Unfortunately, if we adopt the former scheme we shall begin by dropping baseball and track as these have the largest net losses, and if we retrench very much in our method of handling teams,—that is in providing proper equipment, competent officials, and safe transportation,—I do not believe the town would be at all satisfied. (3) The school committee may if it deems it expedient meet some of the expenses of our teams. Under the law the committee cannot pay for personal equipment as uniforms, mits, etc.; but it has every right to pay for bats, balls, officials' fees, or even for transportation. It is done in Abington, in Whitman, in Bridgewater, in fact in nearly every town in this vicinity. If the committee feels that athletics are worth while, and if it wishes them carried on along the general lines now followed I would recommend that the general appropriation should bear a larger share

of the expense; otherwise we shall have to begin cutting expenses on the baseball season this spring."

Townspeople observe the attendance at some of the games and find it hard to understand why the interscholastic athletic activities find it difficult to remain self-supporting. They have very little information regarding the cost of outfitting football squads, boys' basketball teams, girls' basketball teams, baseball teams, and girls' hockey teams. They do not even realize how much playing equipment, such as baseballs, footballs, basketballs, hockey sticks, etc., cost. They have a still poorer idea of the cost of officials for games; they, for the most part do not realize that competent officials for a football game cannot be secured for less than $25.00, and that it takes $10.00 to secure a competent basketball referee. Then there is the expense of transportation when teams play away from home. As an illustration, let us assume that a neighboring high school basketball team comes here to play, and that admissions to the game total $25.00. Ten dollars of this goes to the referee. The remaining fifteen dollars will be required for transportation of the team when the return game is played in the neighboring town. Such a game shows a net loss to the extent of the cost of advertising posters and wear and tear on basketballs, uniforms, etc.

In view of the facts presented, I have reluctantly come to the conclusion that some financial assistance for athletics from the school appropriation is advisable. Such assistance would of course imply more direct School Committee control of a general nature over athletics than is now exercised.

GRADUATING CLASS OF 1930

The graduating class of 1930 numbered 59 members, the same as the classes of 1927 and 1928. Graduation exercises were held in the new auditorium on June 26. The Louis A. Frothingham Scholarship was awarded for the first time, Miss Grace Harvey, now a student at Boston University, being the winner. This scholarship, like the Ames Scholarship and the French Scholarship, is awarded for a period of three years,

in rotation with the other two. The Federated Clubs Scholarship was awarded to Miss Pauline Coughlin, who has entered the Massachusetts School of Art. Edwin Olson was awarded the Laural Club Scholarship. He is attending Burdett College.

VISUAL EDUCATION IN EASTON SCHOOLS

Recent years have witnessed great advances in projection equipment available for school use as an aid to instruction. While the School Department itself has done very little to provide Easton schools with equipment of this nature, individual schools have secured the necessary money and purchased equipment. At present we have the following equipment in our schools, all of which projects still pictures:

Junior High School—a Balopticon, (which is a combined stereoptican and reflectoscope) for projection of glass slides and ordinary pictures like post-cards, etc. This was purchased with funds raised by the Junior High School.

North Easton Grammar School—(1) a Balopticon similar to the one at the Junior High School, (2) a Spencer Film-Slide projector and (3) a large collection of films for the latter. The two instruments and a large proportion of the film-slides were purchased with money raised at the North Easton Grammar School.

Union School—A Spencer Film-Slide Projector like the one at the North Easton Grammar School. This projector was purchased from funds raised by the Union School pupils and teachers.

Eastondale School—A Brayco Film-Slide Projector, purchased with town funds.

The film-slides are kept at the North Easton Grammar School and requisitioned by teachers at other schools as needed.

We hope soon to have a motion picture machine at the high school. The booth for such a machine is already built in. Machines suitable for use in the booth and having at the same time portable features are now on the market. Such machines could be used in classrooms with safety film as well as in the

booth with standard film. The educational possibilites of motion pictures in school work are already vast, and the quality of the film material available is constantly improving.

CHRISTMAS EXERCISES

As usual the children in the elementary grades enjoyed part of the afternoon of the Friday before Christmas in participating in Christmas festivities. The outstanding event occurred at the North Easton Grammar School, and is described in the Principal's report as follows:

"Christmas was observed in all the grades the last afternoon of the term. Through the kindness of Mrs. Louis A. Frothingham, Mrs. John S. Ames and Mrs. F. Lothrop Ames Christmas cheer was brought to the boys and girls of the kindergarten and primary grades. A large Christmas tree well decorated, a Santa Claus with gifts for each child and last of all ice cream made all the children very happy."

SCHOOL NEEDS

In the Report for 1924 Superintendent Wheeler listed eight items which he considered the greatest needs of the schools of Easton. This list included (1) an assembly hall for high and junior high school use, (2) a cafeteria for high and junior high school use, (3) a new junior high school building, (4) a playground and athletic field in the vicinity of the high school building, (5) remodelling the Union schoolhouse, (6) new scholarships so that one may be awarded each year under conditions similar to those of the French Scholarship, (7) a system of school savings, and (8) raising sufficient money by taxation to keep the Oliver Ames Fund. All of these needs except the seventh have been accomplished, although we feel that much work remains to be done on the Union School building, as suggested earlier in this report.

Most of the above needs referred to the physical plant, and most of them have been provided. More than ever during the last two years, the major attention of the writer has been centered on the activities connected with the supplying of these needs. It is his hope that in the future more of his

attention can be given to the academic activities of the school system. Below are listed some of the things which in his opinion need attention in the schools in the near future.

1. Greater attention to character education, including courtesy. The junior-senior high school staff is now at work on some phases of this problem.

2. Greater attention to a guidance program in the junior-senior high school, in both the educational and vocational aspects. This includes a wider use of standard test results.

3. Greater recognition of good scholarship in the high school, and the encouraging of a better "work-spirit" on the part of the pupils, is needed; the teachers are now working in an organized way to develop this attitude.

4. Increased development of the school libraries in all of our schools. In the grades this means largely classroom libraries.

5. Greater emphasis on health education in the schools.

6. Continued curriculum studies, resulting in (1) better course outlines of our own making, (2) a clearer conception on the part of teachers of the aims of education in general and of subjects and courses in particular, in terms of child development rather than in terms of subject matter, and (3) more effective methods of securing the results desired.

7. The development of closer contacts and more complete understanding between the school and the home.

8. Improvement in playground facilities at South Easton School, North Easton Grammar School and Union School, and development of the Eastondale School playground.

9. More attractive grounds at the Union School.

10. Correction of the hygienic defects of the Union School building.

11. A system of school savings.

The program of needs outlined by Superintendent Wheeler in 1924 required six years for its approximate completion. The program outlined above will require several years before satisfactory progress toward its completion will be possible. Unlike Mr. Wheeler's program, the above, with the possible exception of item 10, does not call for large expenditures of money outside the general appropriation for Schools.

IN CONCLUSION

I am glad to commend to you the service rendered by all employees of the School Department. I am appreciative of the cooperative attitude shown and hard work contributed by members of the Special Building Committee. The support given the schools by the general public, and the helpfulness of the great rank and file of parents, is greatfully recognized. The number of hours of thought and labor put into efforts for the good of the boys and girls in the schools by you, the members of the School Committee, without compensation other than the satisfaction of service rendered, is appreciated by me, and I believe, by townspeople in general.

Respectfully submitted,

GILBERT C. MANN.
